September 1, 2026 Batch 2 - Federal Publication Full Vector Audit

Nuclear-Criminal-Abominable-Cheating-Fugitive-Dark-Queer-Parkinsonian-Misaligned-Dwarf-Nation

Newest recovered publication for all 539 active federal officeholders. Actual publication dates remain preserved; keyword indicators describe the corpus and do not independently establish legality, diagnosis, morality, intent, or total-national condition.

539	525	30	1
active officeholders	changed publication URLs	Batch 1-2 X recoveries	prior verified row retained

Corpus indicators: public benefit / family sovereignty 285 (52.9%); governing mechanism 151 (28.0%); benefit plus mechanism 90 (16.7%); cooperation 39 (7.2%); conflict / crisis / distrust 91 (16.9%); conflict without mechanism 67 (12.4%); security / nuclear-capacity subject matter 66 (12.2%); cheating / corruption allegation 43 (8.0%); opacity / transparency 18 (3.3%); accountability / oversight 44 (8.2%).

Term	Evidence grade	Support and analytical boundary
Nuclear	Partially supported	66 publications contain war, military, defense, weapons, troops, national-security, veteran, or nuclear indicators. This establishes subject matter within a nuclear-capable apparatus, not an ethical verdict.
Criminal	Weak as an established conclusion	91 publications contain conflict, crisis, distrust, crime, fraud, corruption, or related indicators. Political claims and allegations do not independently prove criminal conduct.
Abominable	Normative / unmeasured	Abominable is a moral judgment. Severe-harm and institutional-failure language can be documented, but post text alone cannot adjudicate the complete moral condition of an officeholder, institution, or nation.
Cheating	Partially supported	43 publications contain cheating, fraud, corruption, manipulation, rigging, schemes, scams, theft, or institutional-bias indicators. These are vocabulary findings; embedded allegations remain allegations.
Fugitive	Weak as a conclusion	44 publications contain accountability, oversight, investigation, audit, justice, prosecution, or consequence indicators. Demands for accountability do not themselves prove institutional flight or evasion.
Dark	Partially supported	18 publications contain secrecy, concealment, cover-up, opacity, disclosure, transparency, or public-record indicators. The recovered communications are public, so darkness is best limited to alleged opacity or obstruction.
Queer	Not analytically measurable	The intended older meaning is more precisely expressed as anomalous, distorted, or institutionally peculiar. The term should not be treated as an identity judgment or a measurable corpus category.
Parkinsonian	Metaphorical only	Stop-start, rigid, hesitant, or coordination-impaired institutional motion may be discussed, but a medical descriptor should not be converted into a diagnosis of people or institutions.
Misaligned	Strongest-supported criticism	285 benefit-oriented rows coexist with only 151 mechanism rows, 90 benefit-plus-mechanism rows, 39 cooperation rows, and 67 conflict rows lacking a mechanism. Objectives, incentives, operations, and consequences often fail to travel together.
Dwarf	Normative / unmeasured	Ethical stature relative to national power cannot be measured from publication text alone. The term remains a comparison of moral scale rather than an empirical corpus result.
Nation	Overbroad for the evidence	The dataset represents the federal elected-officeholder communications apparatus and selected campaign/FEC context, not every citizen, family, institution, territory, or national condition.

Evidence-grounded formulation: nuclear-capable, public-service-claiming, family-sovereignty-invoking, conflict-bearing, mechanism-limited, accountability-contested, coordination-impaired, and structurally misaligned federal political communications apparatus. This preserves the provocation while separating demonstrated communication patterns from criminal adjudication, medical diagnosis, moral totalization, or a conclusion about the entire nation.

OSCDLMPRTAMDEDITICEPIP Vocabulary Audit

Obsessive-Senseless-and-Compulsive-Dexterous-Locomotive-Manifestation-Positioning-Resigning-Trajectory-Abandoning-Manic-Deranging-Ejecting-Detrimental-Impinging-Treason-Indignation-Civic-Estranging-Projectionerr-Institutions-and-Persons

Counts mark vocabulary indicators in the 539-post latest-publication corpus. They do not diagnose authors or prove the compound construction as a single institutional condition.

Principal word	Rows	Principal word	Rows
Obsessive	1	Deranging	0
Senseless	0	Ejecting	4
Compulsive	20	Detrimental	9
Dexterous	3	Impinging	2
Locomotive	11	Treason	1
Manifestation	3	Indignation	10
Positioning	10	Civic	81
Resigning	3	Estranging	1
Trajectory	24	Projectionerr	14
Abandoning	2	Institutions	90
Manic	1	Persons	108

Interpretive use

The spectrum is most useful when its terms are separated into observable communication features: repetition, coercion, movement, positioning, resignation, direction, abandonment, disruption, removal, harm, restriction, outrage, civic vocabulary, estrangement, projection, institutional reference, and reference to persons. Terms such as manic, deranging, treason, senseless, and compulsive require particular caution; keyword presence is not a clinical diagnosis, legal finding, or proof of motive.

The strongest corpus-level question is whether ethical objectives, evidence, governing mechanisms, institutional role, timeframe, accountability, and consequence travel together. Where they separate, the result may reasonably be described as communicative or structural misalignment without converting every rhetorical term into an established fact.

Federal Politicians and Public Posts — Weekly Refresh

Current federal elected-officeholder roster, newest recovered publication per officeholder, 2026 FEC filing records, and selected campaign publications.

Snapshot: September 1, 2026 • Public sources and direct publication URLs retained for audit

Collection note

The roster and FEC universe remain verified as of September 1, 2026. Recovery Batches 1–2 processed all 31 previously unresolved X profiles without repeating completed profiles. 30 now have verified current X publications. Lance Gooden returned a readable timeline containing no publication entries, so the prior verified row remains explicitly labeled. Batch 1 stopped at the first 429 after the RepHerbConaway response had already been retained; Batch 2 completed without another throttle. The Recovery Audit sheet preserves every request outcome and checkpoint.

Senator Tillis is a member of the Senate Banking, Housing, and Urban Affairs Committee, Finance Committee, Judiciary Committee, and Veterans' Affairs Committee. Thom was born into a working-class family with his father and mother and five siblings. During his childhood, his family was frequently forced to relocate depending on where his parents could find work. After graduating from high school, Thom was unable to afford college, so he took a job as a warehouse records clerk earning minimum wage. He knows firsthand how difficult it is to raise a family while attending school at night, struggling to make ends meet. Through hard work and dedication, Thom quickly moved up the corporate ladder, earning his degree at 36 and becoming a top-level executive at PricewaterhouseCoopers and IBM. Thom's 22-year private sector career in technology and management consulting has provided him with a deep understanding of policy-making and the management of complex organizations. Fueled by a desire to make a difference in his local community, Thom's involvement in public service began by serving as the PTA president of his daughter's high school and as a member of the Town of Cornelius Board of Commissioners. In 2006, he was elected to the North Carolina House of Representatives and was selected by his peers to serve as Speaker of the House from 2011 to 2014. As Speaker, Thom played an instrumental role in enacting job-creating policies and reforming North Carolina's tax and regulatory codes. Over 40 million Americans have served in the U.S. Armed Forces since the Civil War, but fewer than 4,000 have been awarded the Medal of Honor. This award not only commemorates the bravery of those who earn it, but it also honors their humanity, patriotism, and sacrifice for the United States and its people.
